Subject: **Georgetown Steam Plant Low-Lying Area Interim Action -
Certification for Self-Implementing Cleanup of PCB Remediation Waste**

Dear Mr. Duncan:

In accordance with the provisions for conducting self-implementing cleanup of PCB remediation waste under the Toxic Substances Control Act (40 C.F.R § 761.61(a)(3)), I provide the following certification for proposed interim cleanup actions at the Georgetown Steam Plant located at 6605 13th Avenue South in Seattle, WA:

As the property owner and party responsible for conducting the proposed interim actions (described in the draft Georgetown Steam Plant Low-Lying Area Interim Action Work Plan submitted August 20, 2010) the City of Seattle certifies that all sampling plans, sample collection procedures, sample preparation procedures, extraction procedures, and instrumental/chemical analysis procedures used to assess or characterize the PCB contamination for the Georgetown Steam Plant Low-Lying Area are on file at the City of Seattle, Seattle City Light's Environmental Affairs Division, and are available for EPA inspection.

Please contact me should you have any questions or require additional information.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Jennie Goldberg'.
